Technology leads revenue

Technology drives 60%+ of total sales. Phones and Computers are the top subcategories across all 4 years

Profit margins are thin

Despite high sales, margins stay around 11–15% due to heavy discounting across product lines.

West region outperforms

West consistently exceeds targets. Central region shows the largest negative target gap and needs strategic review.

Recommendation

Reduce discounting on Technology products and invest sales resources into the Central region to close the

"Global Superstore demonstrates strong revenue growth of 18% YoY, driven primarily by Technology products in the West region. However, aggressive discounting is suppressing profit margins below 15%. We recommend a discount cap policy and a targeted sales campaign for the Central region to drive balanced, profitable growth across all territories."
